एक कदम स्वच्छता की ओर

To accelerate the efforts to achieve universal sanitation coverage and to put focus on sanitation, the Prime Minister of India had launched the Swachh Bharat Mission on 2<sup>nd</sup> October 2014. The mission was implemented as nation-wide campaign / Janandolan which aimed at eliminating open defecation in rural areas during the period 2014 to 2019 through mass scale behavior change, construction of household-owned and community-owned toilets and establishing mechanisms for monitoring toilet construction and usage.

Under the mission, all villages, Gram Panchayats, Districts, States and Union Territories in India declared themselves "open-defecation free" (ODF) by 2<sup>nd</sup> October 2019, the 150th birth anniversary of Mahatma Gandhi, by constructing over 100 million toilets in rural India.

To ensure that the open defecation free behaviours are sustained, no one is left behind, and that solid and liquid waste management facilities are accessible, the Mission is moving towards the next Phase II of SBMG i.e. ODF-Plus. ODF Plus activities under Phase II of Swachh Bharat Mission (Gramin) will reinforce ODF behaviours and focus on providing interventions for safe management of solid and liquid waste in villages.

## Vision

The aim of Swachh Bharat Mission (Gramin) phase II is to ensure the open defecation free behaviours are sustained

## Objectives

- Open defecation free behaviours are sustained and no one is left behind.
- Solid and liquid waste management facilities are accessible and reinforcing ODF behaviours and focus on providing interventions for safe management of solid and liquid waste in villages
- To encourage cost effective and appropriate technologies for ecologically safe and sustainable sanitation.
- To develop, wherever required, community managed sanitation systems focusing on scientific Solid & Liquid Waste Management systems for overall cleanliness in the rural areas.
- To create significant positive impact on gender and promote social inclusion by improving sanitation especially in marginalized communities.

**Kalburgi Cement Private Limited** is a 100% owned subsidiary of Vicat Group in India. The company was established in 2008, as a joint venture (Vicat Sagar Cement Pvt. Ltd.) between French cement major, Vicat and Sagar Cements in India. Vicat held 53% stake and subsequently bought 100% stake in 2015. Post-acquisition, it was renamed as **Kalburgi Cement Private Limited**.

Kalburgi Cement has a production capacity of over 2.75 MTPA with a state-of-the-art manufacturing facility located at Chatrasala, in Kalaburagi district of Karnataka. The company markets its products under the brand name of “**Bharathi Cement**” since 2013 to ensure operational synergies between operating companies of Vicat in India.

Bharathi Cement is served primarily for 3 states i.e. Maharashtra, North Karnataka and Telangana from this location.

The total capacity of the plant is being built in 3 phases at Chatrasala and can have a total annual capacity of 8.25 million tones - each phase having a capacity of 2.75 MTPA. The first phase also has a 30MW Captive Power Plant and Waste Heat Recovery System of 8.4MW. To meet the future expansion demands and seamless logistic activities a complete Rail and Road infrastructure is already in place. The first phase of the plant commenced its production on 16 January 2013.

Kalburgi Cement plant is built with ultra-modern German and Danish Technology - a unique tech-no-advancement in Indian Cement industry. The Technological selection of equipment's makes this plant one of the most energy efficient plant.

This plant has a world class “**Central Control Room**” and is designed considering best aesthetics and ergonomics providing a very healthy and lively ambience to ensure and maintain team's high energy level at the plant. The control room also accommodates a Robotic Lab, and a Technical Library at the heart of the plant for close monitoring and efficient operations of plant.

This plant is also having a distinguished feature than other cement plants i.e. “**Concrete Laboratory**”. It helps analyze the performance of cement in concrete so as to help customers to optimize cement usage for their specific construction requirements.

Apart from all the work done for sustainability programs our organization is committed to environment friendly operations at factory. After the launching the Swachh Bharat Mission by our prime minister of India our organization have conducted and contributed so many programs under the guidance of Indian Bureau of Mines to the near by villages.

Swachh Bharat Adhyayan, Swachha Pakhwada, Swachha Hi Seva & Azadi Ka Amruth Mahotsav Programs are some of the examples of the works done by our organization towards cleanliness and hygienic conditions build up in and around the plant premises and also in the near by villages.

HOUSE KEEPING NEAR KILN & CCR AREA

HOUSE KEEPING NEAR ENTRANCE GATE & PLANT INSIDE ROADS

HOUSE KEEPING AT MINES WORKSHOP AREA

- Creating awareness about the Swachha at work place among the mine workers through Swachha Pakhwada Programs.

CAMPAINING REGARDING SWATCHATHA IN CHATRASALA VILLAGE BY SCHOOL CHILDREN

Village Wise Toilets Construction under ODF Program					
Village	2016	2017	2018	2019	TOTAL
Chatrasala	54	-	20	25	99
Kherchikhed	40	50	20	0	110
<b>TOTAL</b>	<b>94</b>	<b>50</b>	<b>40</b>	<b>25</b>	<b>209</b>
